Behavioral Health Integration

Benjamin F. Miller
University of Colorado
Department of Family Medicine

Agenda

- Review Milestone 2 requirements for behavioral health integration
- Highlight key questions practices should ask and address for behavioral health
- Provide examples from CPC practices

Vanguard Medical Group, New Jersey

Janet Duni, RN

Tilley Diagnostic Clinic, Arkansas

Yampa Valley Medical Associates, Colorado

Panelist Question 1

- Describe how your practice came to a place where you decided to pursue behavioral health integration.
- What led to this decision?

Panelist Question 2

- Describe how your practice came to a place where you decided to pursue integration of behavioral health.
- What led to your decision?
- What does your patient population look like?
- Is there a need for integrating behavioral health?
- How are they identified?
- How are they treated?
- What's the next step?

Panelist Question 3

- Walk us through the workflow for delivering integrated behavioral health in your practice.
- How are they identified?
- How are they treated?
- What's the next step?
- If there will be a delay in behavioral services, what is your process for tracking/helping patients?

Panelist Question 4

- What differences have you seen in your practice, your providers, and your patients since integrating behavioral health?

Panelist Question 5

- What would you say remain the biggest challenges for behavioral health integration?

Panelist Question 6

- What tools/resources/training have you and your behavioral health integration found to be the most useful?
