

State Plan under Title XIX of the Social Security Act
State/Territory: North Carolina

TARGETED CASE MANAGEMENT SERVICES
[Individuals with Mental Illness/Substance Use Disorders]

- ❖ Development (and periodic revision) of a specific care plan that is based on the information collected through the assessment that
 - specifies the goals and actions to address the medical, social, educational, and other services needed by the individual;
 - includes activities such as ensuring the active participation of the eligible individual, and working with the individual (or the individual's authorized health care decision maker) and others to develop those goals; and
 - identifies a course of action to respond to the assessed needs of the eligible individual;
- ❖ Referral and related activities (such as scheduling appointments for the individual) to help the eligible individual obtain needed services including
 - activities that help link the individual with medical, social, educational providers, or other programs and services that are capable of providing needed services to address identified needs and achieve goals specified in the care plan; and
- ❖ Monitoring and follow-up activities:
 - activities and contacts that are necessary to ensure the care plan is implemented and adequately addresses the eligible individual's needs, and which may be with the individual, family members, service providers, or other entities or individuals and conducted as frequently as necessary, and including at least one annual monitoring, to determine whether the following conditions are met:
 - services are being furnished in accordance with the individual's care plan;
 - services in the care plan are adequate; and
 - changes in the needs or status of the individual are reflected in the care plan. Monitoring and follow-up activities include making necessary adjustments in the care plan and service arrangements with providers.

Plans are monitored on at least an annual basis or at any time additional services are needed and requested by or for a recipient. The plan will be reviewed and agreed upon by the recipient, recipient parent or legal representative and case manager.

Case management includes contacts with non-eligible individuals that are directly related to identifying the eligible individual's needs and care, for the purposes of helping the eligible individual access services; identifying needs and supports to assist the eligible individual in obtaining services; providing case managers with useful feedback, and alerting case managers to changes in the eligible individual's needs.
