4.b.(8) Diagnostic, Screening, Treatment, Preventive and Rehabilitative Services (continued)
Description of Services

(j) Ambulatory Detoxification

Ambulatory Detoxification is an organized service available to children and adults, delivered by trained practitioners who provide medically supervised evaluations, detoxification and referral services according to a predetermined schedule. Medical supervision consists of a physician available 24 hours a day by telephone, a registered nurse who monitors the recipient's progress and medication, and appropriately licensed and credentialed staff to administer medications in accordance with physician orders. Ambulatory Detoxification service components include outpatient services delivered by trained clinicians, who provide medically supervised evaluation, detoxification and referral services according to a predetermined schedule. Such services are provided in regularly scheduled sessions. The services are designed to treat the patient's level of clinical severity and to achieve safe and comfortable withdrawal from mood-altering drugs (including alcohol) and to effectively facilitate the patient's transition into ongoing treatment and recovery. These services are provided in a licensed facility with regularly scheduled sessions by a Certified Clinical Supervisor (CCS), Licensed Clinical Addictions Specialist (LCAS), Qualified Professional (QP) or Associate Professional (AP). A CCS is an individual who is certified as such by the North Carolina Substance Abuse Professional Certification Board. A LCAS is certified as such by the North Carolina Substance Abuse Professional Certification Board. The Qualified Professional is:

- (a) an individual who holds a license, provisional license, certificate, registration or permit issued by the governing board regulating a human service profession, except a registered nurse who is licensed to practice in the State of North Carolina by the North Carolina Board of Nursing who also has four years of full-time accumulated experience in MH/DD/SA with the population served; or
- (b) a graduate of a college or university with a Masters degree in a human service field and has one year of full-time, post-graduate degree accumulated MH/DD/SA experience with the population served, or a substance abuse professional who has one year of full-time, post-graduate degree accumulated supervised experience in alcoholism and drug abuse counseling; or
- (c) a graduate of a college or university with a bachelor's degree in a human service field and has two years of full-time, post-bachelor's degree accumulated MH/DD/SA experience with the population served, or a substance abuse professional who has two years of full-time, post-bachelor's degree accumulated supervised experience in alcoholism and drug abuse counseling; or
- (d) a graduate of a college or university with a bachelor's degree in a field other than human services and has four years of full-time, post-bachelor's degree accumulated MH/DD/SA experience with the population served, or a substance abuse professional who has four years of full-time, post-bachelor's degree accumulated supervised experience in alcoholism and drug abuse counseling.

An AP within the mental health, developmental disabilities and substance abuse services (MH/DD/SAs) system of care is a:

4.b.(8) Diagnostic, Screening, Treatment, Preventive and Rehabilitative Services (continued)
Description of Services

(a) graduate of a college or university with a Masters degree in a human service field with less than one year of full-time, post-graduate degree accumulated MH/DD/SA experience with the population served, or a substance abuse professional with less than one year of full-time, post-graduate degree accumulated supervised experience in alcoholism and drug abuse counseling. Supervision shall be provided by a qualified professional with the population served until the individual meets one year of experience. The supervisor and the employee shall develop an individualized supervision plan upon hiring. The parties shall review the plan annually; or

(b) graduate of a college or university with a bachelor's degree in a human service field with less than two years of full-time, post-bachelor's degree accumulated MH/DD/SA experience with the population served, or a substance abuse professional with less than two years of full-time, post-bachelor's degree accumulated supervised experience in alcoholism and drug abuse counseling. Supervision shall be provided by a qualified professional with the population served until the individual meets two years of experience. The supervisor and the employee shall develop an individualized supervision plan upon hiring. The parties shall review the plan annually; or

(c) graduate of a college or university with a bachelor's degree in a field other than human services with less than four years of full-time, post-bachelor's degree accumulated MH/DD/SA experience with the population served, or a substance abuse professional with less than four years of full-time, post-bachelor's degree accumulated supervised experience in alcoholism and drug abuse counseling. Supervision shall be provided by a qualified professional with the population served until the individual meets four years of experience. The supervisor and the employee shall develop an individualized supervision plan upon hiring. The parties shall review the plan annually; or

(d) registered nurse who is licensed to practice in the State of North Carolina by the North Carolina Board of Nursing with less than four years of full-time accumulated experience in MH/DD/SA with the population served. Supervision shall be provided by a qualified professional with the population served until the individual meets four years of experience. The supervisor and the employee shall develop an individualized supervision plan upon hiring. The parties shall review the plan annually.

Ambulatory Detoxification is an outpatient service that provides periodic services involving the provision of supportive services, particularly active support systems under the supervision of a physician for clients who are experiencing physical withdrawal from alcohol and other drugs, including but not limited to appropriate medical, nursing and specialized substance abuse services. This service must be provided in an Ambulatory Detoxification Facility licensed under 10A NCAC 27G .3301. Each outpatient detoxification facility shall operate at least eight hours per day, for a minimum of five days per week.

4.b.(8) Diagnostic, Screening, Treatment, Preventive and Rehabilitative Services (continued)
Description of Services

Documentation must include: a service note that includes the recipient's name, Medicaid identification number, date of service, purpose of contact, describes the provider's interventions, includes the time spent performing the interventions, effectiveness of the intervention, and the signature of the staff providing the service. A physician is available 24/7 to conduct an assessment within 24 hours of admission. A registered nurse is available to conduct a nursing assessment on admission and oversee the monitoring of patient's progress and medications. This service must be ordered by an MD, NP, PA or PhD psychologist. Prior approval will be required via the statewide UR vendor or by an approved LME contracted with the Medicaid Agency and meeting the same standards and requirements as the statewide vendor. This initial prior approval process will ensure that the level of the service is appropriate and concurrent reviews will determine the ongoing medical necessity for the service or the need to move up or down the continuum of services to another level of care.
