**Health related (non-core) services include:**

- Group exercise sessions
- Acupuncture
- Breakfast and/or lunch
- Therapeutic massage
- Yoga
- Pastoral care
- Therapeutic recreation and structured socialization services
- Tai-chi

For adult day health care services provided on and after January 1, 2007, medical assistance rates of payment to diagnostic and treatment centers shall be increased up to an annual amount of \$2.8 million in the aggregate. Such amount shall be allocated proportionally among eligible providers based on the medical assistance visits reported by each provider in the most recently available cost report, as submitted to the Department of Health. Such allocated amounts will be included as an adjustment to each provider's daily rate of payment for such services.

Effective for adult day health care services rendered on and after January 1, 2007 through December 31, 2009, and for adult day health care services provided to patients diagnosed with AIDS on and after April 1, 2009, medical assistance rates of payments shall reflect trend factor adjustments computed in accordance with the previously approved trend factor methodology. Such adjustments shall be applied to the operational cost component of the rate.

For adult day health care services provided on and after January 1, 2007, medical assistance rates of payment to residential health care facilities shall be increased up to an annual amount of \$2.8 million in the aggregate. Such amount shall be allocated proportionally among eligible providers based on the medical assistance visits reported by each provider in the most recently available cost report, as submitted to the Department of Health. Such allocated amounts will be included as an adjustment to each provider's daily rate of payment for such services.

For adult day health care services rendered on and after January 1, 2007, through December 31, 2009, and for adult day health care services provided to patients diagnosed with AIDS on and after April 1, 2009, medical assistance rates of payments shall reflect trend factor adjustments computed in accordance with the previously approved trend factor methodology contained on page 1(c)(i) in this Attachment.

(h) For the period April 1, 2007 and thereafter, rates of payment for adult day health care services provided by residential health care facilities, shall be computed in accordance with the following:

- (i) the operating component of the rate for an adult day health care program that has achieved an occupancy percentage of 90% or greater for a calendar year, prior to April 1, 2007, shall be calculated utilizing allowable costs reported in the 2004, 2005, or 2006 calendar year residential health care facility cost report filed by the sponsoring residential health care facility, whichever is the earliest of such calendar year cost reports in which the program has achieved an occupancy percentage of 90% or greater, except that programs receiving rates of payment based on allowable costs for a period prior to April 1, 2007 shall continue to receive rates of payment based on that period;
- (ii) for programs that achieved an occupancy percentage of 90% or greater prior to calendar year 2004 but did not maintain occupancy of 90% or greater in calendar years 2004, 2005, or 2006, the operating component of the rate of payment will be calculated utilizing allowable costs reported in the 2004 calendar year cost report divided by visits imputed at 90% occupancy.

Effective Date APR 01 2009

- (iii) programs that have not achieved an occupancy of 90% or greater for a calendar year prior to April 1, 2007, will have the operating component of the rate of payment calculated utilizing allowable costs reported in the first calendar year after 2006 in which the program achieves an occupancy of 90% or greater effective January first of such calendar year except for calendar year 2007, effective no earlier than April first of such year, provided, however, that effective January 1, 2009 programs that have not achieved an occupancy of 90% or greater for a calendar year prior to January 1, 2009, the operating component of the rate of payment will be calculated utilizing allowable costs reported in the 2009 cost report filed by the sponsoring residential health care facility divided by actual visits or imputed at 90% occupancy, whichever is greater. This will also apply to programs which achieve an occupancy percentage of 90% or greater prior to calendar year 2004, but in such year had an approved capacity that was not the same as in calendar year 2004.
- (iv) for residential health care facilities approved to commence operation of an adult day health care program on or after April 1, 2007, rates of payment for these programs will be computed based upon annual budgeted allowable costs, as submitted by the residential health care facility, and total estimated annual visits by adult day health registrants of not less than 90% of licensed occupancy. Each program shall also be required to submit an individual budget. Multiple programs operated by the same residential health care facility shall each have separate rates of payment;
- (v) Rates developed based upon budgets shall remain in effect for no longer than two calendar years from the earlier of:
- (A) the date the program commences operations; or
  - (B) the date the sponsoring residential health care facility submits a full calendar year residential health care facility cost report in which the program has achieved 90% or greater occupancy. If a sponsoring residential health care facility submits such a cost report within two years of the date the program commences operation, rates shall then be computed utilizing that cost report.
