

Effective September 1, 2009, immunization services provided in a freestanding clinic when no other medical services are provided during that patient visit shall be reimbursed entirely on the APG methodology.

Effective for dates of service on and after September 1, 2009, payments to freestanding clinics for the following services shall be based on fees or rates established by the Department of Health: (1) wheelchair evaluations, (2) eyeglass dispensing, and (3) individual psychotherapy services provided by licensed social workers to persons under the age of 21, and to persons requiring such services as a result of or related to pregnancy or giving birth, and (4) individual psychotherapy services provided by licensed social workers at freestanding clinics that provided, billed for, and received payment for these services between January 1, 2007 through December 31, 2007.

Except as otherwise noted in the plan, state-developed fee schedule rates are the same for both governmental and private providers. The agency's current fee schedule rates are available at <http://www.emedny.org/ProviderManuals/index.html>.

(1/09)**

The following is an example of a sample APG base rate calculation:

a. 2007 Peer Group Reimbursement	\$51,000,000
b. Additional Investment	\$25,000,000
c. Case Mix Index	8.1610
d. Coding Improvement Factor	1.05
e. 2007 Base Year Visits	50,000

$$(\$51,000,000 + \$25,000,000) / (8.1610 \times 1.05 \times 50,000) = \$177.38 \text{ (Base Rate)}$$

VI. During the transition period, reimbursement for freestanding clinic and ambulatory surgery center services shall consist of a blend of each facility's average 2007 Medicaid rate and the APG calculation for that visit. The average 2007 Medicaid rate for purposes of blending is computed by dividing the amount paid in calendar year 2007 for all rate codes reflected in the APG rate setting methodology, by the total visits paid through those codes for the same time period. In the initial phase (ending December 31, 2009) 25% of the operating payment for each visit will be based upon the APG reimbursement methodology and 75% will be based upon the provider specific average operating payment for calendar year 2007. During 2010, the blend will be 50/50. During 2011, the blend will be 75/25. Payments will be based upon 100% of the APG operating component beginning on January 1, 2012. Per the enabling statute, as new services the Education APGs and the Extended Hours APGs are not subject to the blend requirement.

Effective for dates of service on and after September 1, 2009, smoking cessation counseling services provided to pregnant women on any day of her pregnancy, during a medical visit provided by a freestanding clinic shall be reimbursed entirely on the APG methodology.
