23. REMARKS:			

4.b. **EPSDT Services (continued)**

**Diagnostic Services - Environmental Lead Investigation Services**

Definition:

Environmental lead investigation services outlined in this section of the state plan are available to Medicaid-eligible recipients under the age of 21 years, who are eligible for Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) services and for whom the service is medically necessary.

Services:

An environmental lead investigation is an EPSDT medically necessary service when a child has an elevated blood lead level in accordance with federal guidelines and the investigation is recommended by a child's provider. This service includes a one-time investigation to determine the source of lead at the child's home or primary residence.

Providers:

In accordance with the regulations at 42 CFR §431.51, all willing and qualified providers may participate in this program. Qualified providers are public health entities. These entities will ensure that all staff and contractors performing environmental lead investigation services are qualified lead risk assessors as stipulated in 40 CFR §745.226.

Place of Service:

Environmental lead investigation services may be delivered at the child's home or primary residence.

**32. Reimbursement Methodologies for Early and Periodic Screening, Diagnosis, and Treatment- Comprehensive Care Program (EPSDT-CCP) Services - continued**

- (19) Environmental Lead Investigations. The rate for on-site environmental lead investigations is reimbursable only for Medicaid-eligible clients under age 21. The initial rate is based on the estimated costs to perform an inspection of the child's primary dwelling. The estimated costs used to develop this rate include salary and fringe costs. Indirect costs are included based on the estimated lifespan of the equipment and the number of anticipated investigations completed annually.
- (a) Payment is limited to providers that are Certified Lead Risk Assessors accredited by the Texas Department of State Health Services.
  - (b) The rate for environmental lead investigations will be reviewed and updated periodically by projecting the initial rate from the historical cost period used to develop the initial rate to the perspective rate period using the Personal Consumption Expenditures (PCE) Chain - Type Price Index.
  - (c) All fee schedules are available through the agency's website, as outlined on Attachment 4.19-B, page 1.
  - (d) The agency's fee schedule was revised with the new fee for environmental lead investigations effective July 1, 2010, and is effective for services provided on or after that date. This fee schedule was posted on the agency's website on July 9, 2010.
