21. TYPED NAME: Bill Brooks		22. TITLE: Associate Regional Administrator Division of Medicaid & Children's Health	
23. REMARKS:			

39. Case Management Services for Infants and Toddlers with Development Delays

(a) The recommended rate is determined in the following manner:

A	
STATE	Texas
DATE REC'D	9-15-10
DATE APP'D	12-13-10
DATE EFF	10-23-10
HCFA 179	TN 10-53

- (1) Each provider's total reported costs on the TAFI report are compared with their total reported costs on ECI financial reports.
- (2) Providers whose variance between reported costs on the TAFI report and the ECI financial reports exceed plus or minus two standard deviations of the mean provider variance are eliminated.
- (3) Total allowance case management costs for each provider are determined from the allowable historical costs reported on the TAFI report.
- (4) Each provider's total allowable case management cost is projected from the historical cost reporting period to the prospective rate period using inflation factors.
- (5) Each provider's total allowable case management cost is divided by their associated number of unduplicated case management contacts for the period, thus determining the provider's cost per contact.
- (6) The mean provider cost per contact is calculated, and the statistical outliers (those providers whose cost per contact exceeds plus or minus two standard deviations of the mean provider cost per contact) are eliminated. After removal of the statistical outliers, the mean cost per contact is calculated.
- (7) The mean cost per contact is the proposed reimbursement rate.

(b) Rate setting authority. The Commission establishes the reimbursement rate in an open meeting after consideration of financial and statistical information and public testimony. The Commission set rates which, in its opinion, are within budgetary constraints, adequate to reimburse the cost of operations for an efficient and economic provider, and justifiable given current economic conditions.

(c) All fee schedules are available through the agency's website as outlined on Attachment 4.19-B, Page 1.

(d) The current rate of \$141.83 per client per month, which was effective February 1, 2000, is adjusted by applying inflation from federal fiscal year 2000 to federal fiscal year 2010 of 24 percent to calculate a new rate of \$175.87 to be effective March 15, 2010. This monthly rate will end on September 30, 2011.

(e) Beginning October 23, 2010, the TAFI system to collect time and financial information will no longer be used. Effective October 23, 2010, the random moment time study will be implemented and a new cost report will be developed to collect cost.

(f) The agency's fee schedule was revised with a new rate for case management services effective for services on or after March 15, 2010. The new rate will be posted within 30 days of approval of this amendment by CMS.
