3	D0100	D-1	This item helps to determine whether or not a resident or staff mood interview should be conducted.
3	D0100– D0650	D-1– D-17	Page length changed due to revised content on D-1–D-3.
3	D0100	D-2	<p>Steps for Assessment</p> <p>1. Interact with the resident using his or her preferred language. Be sure he or she can hear you and/or has access to his or her preferred method for communication. If the resident appears unable to communicate, offer alternatives such as writing, pointing, sign language, or cue cards.</p> <p>2. Determine whether if the resident is rarely/never understood verbally, in writing, or using another method. If rarely/never understood, skip to D0500, Staff Assessment of Resident Mood (PHQ-9-OV®).</p> <p>3. Review Language item (A1100) to determine if the resident needs or wants an interpreter to communicate with doctors or health care staff (A1100 = 1).</p> <ul style="list-style-type: none"> If the resident needs or wants an interpreter, complete the interview with an interpreter.
3	D0100	D-2	<p>Coding Instructions</p> <ul style="list-style-type: none"> Code 0, no: if the interview should not be conducted because the resident is rarely/never understood or cannot respond verbally, in writing, or using another method, or an interpreter is needed but not available. This option should be selected for residents who are rarely/never understood, or who need an interpreter (A1100 = 1) but one was not available. Skip to item D0500, Staff Assessment of Resident Mood (PHQ-9-OV®). Code 1, yes: if the resident interview should be conducted because the resident is at least sometimes understood verbally, in writing, or using another method, and if an interpreter is needed, one is available. This option should be selected for residents who are able to be understood, and for whom an interpreter is not needed or is present. Continue to item D0200, Resident Mood Interview (PHQ-9®).

3	D0100	D-2– D-3	<ul style="list-style-type: none"> Attempt to conduct the interview with ALL residents. This interview is conducted during the look-back period of the Assessment Reference Date (ARD) and is not contingent upon item B0700, Makes Self Understood. If the resident needs an interpreter, every effort should be made to have an interpreter present for the PHQ-9© interview. If it is absolutely not possible for a needed interpreter to be present on the day of the interview, code D0100 = 0 to indicate that an interview was not attempted and complete items D0500-D0650. Includes residents who use American Sign Language (ASL). If the resident interview was not conducted within the look-back period (preferably the day before or the day of) the ARD, item D0100 must be coded 1, Yes, and the standard “no information” code (a dash “-”) entered in the resident interview items. Do not complete the Staff Assessment of Resident Mood items (D0500) if the resident interview should have been conducted, but was not done. There is one exception to completing the Staff Assessment of Resident Mood items (D0500) in place of the resident interview. This exception is specific to a stand-alone, unscheduled PPS assessment only and is discussed on page 2-60. For this type of assessment only, the resident interview may be conducted up to two calendar days after the ARD. When coding a stand-alone Change of Therapy OMRA (COT), a standalone End of Therapy OMRA (EOT), or a standalone Start of Therapy OMRA (SOT), the interview items may be coded using the responses provided by the resident on a previous assessment only if the DATE of the interview responses from the previous assessment (as documented in item Z0400) were obtained no more than 14 days prior to the DATE of completion for the interview items on the unscheduled assessment (as documented in item Z0400) for which those responses will be used.
