Subject: Updated 2016 Star Ratings dataset for Plan Preview #1

Message:

CMS has updated the dataset for the first 2016 Star Ratings Plan Preview today, 8/11/15.

The following issues have been corrected in the original data posted on 8/7/15:

- Some contracts were showing “No data available” in measure D02 on the Measure Data page when they should have been showing a rate of zero.
- The data for columns “Total Number of SNP Enrollees Eligible” and “Total Number of Assessments Performed” were swapped on the Measure Detail – SNP CM page.

The first plan preview comment period will end on 8/18/15 as announced. Please send questions about Part C and D Star Ratings to PartCandDStarRatings@cms.hhs.gov.
