

**HPMS E-Mail**

**Date:** September 30, 2017

**Subject:** Notice to Release Non-Renewal and Service Area Reduction Information

On September 20, 2017, CMS issued a memorandum to Medicare Advantage organizations and Prescription Drug Plan sponsors advising them how to notify enrollees in plans that are non-renewing or reducing their service area for contract year 2018. The memorandum further advised that this information could not be made public until CMS notified the plans and sponsors.

This email is to advise plans and sponsors that they may now release these notices to the public, including current enrollees.
