Comments and Responses Regarding Draft Urodynamics

As an important part of Medicare Local Coverage Determination (LCD) development, National Government Services solicits comments from the provider community and from members of the public who may be affected by or interested in our LCDs. The purpose of the advice and comment process is to gain the expertise and experience of those commenting.

Although no comments were received, we would like to thank those who reviewed our draft Urodynamics during the January 17, 2008 through March 1, 2008 comment period. We are gratified that the draft LCD was found to be acceptable. The official notice period for the final policy begins on May 15, 2008. The policy will become effective on July 1, 2008.
